Fresh has been cleaning for us since April 2011.

Initially we contracted them to do a spring clean for our company and were so impressed with the high standard of work and great communication that we continue to this day to use their services.

The cleaning staff have always maintained a high standard of work and have been flexible around our staff and their working areas and are always friendly.

Richard has always been readily available and easy to get hold of and communicate with, regularly checking that everything is going well and if we need anything.

We have been thoroughly impressed with Fresh and Richard and would be happy to recommend them as a company to anyone asking.

Kind Regards

Anita Stiles
