Peter Diver

plumbing + drainage ltd

16 August 2012

To Whom It May Concern:

FRESH COMMERCIAL CLEANING

Richard and his team at Fresh Commercial Cleaning have been servicing Peter Diver Plumbing & Drainage offices twice weekly since December 2009.

As you can imagine our offices and workshop get quite dirty with our tradesmen coming in and out especially during the winter months. The standard of cleaning has always been of a high standard, is consistent, and never been an issue. If we require extra services (for example carpet cleaning), Richard is happy to work within our time restraints and will get the job done exactly as required.

Richard also takes a personal interest and communicates on a regular basis to make sure we are happy with his team. He is also happy to work in with what suits our organization, and is extremely flexible and accommodating. When our company initially engaged Fresh Commercial Cleaning, Richard was personally site to ensure there was a smooth transition. From there we have built a strong relationship, and have confidence that our cleaning gets done with minimal fuss.

We have no doubt that Fresh Commercial Cleaning will provide a consistent high standard of cleaning, together with a personal service, and don't hesitate to recommend them to any potential clients.

Yours sincerely

Jane Diver
OFFICE MANAGER
